Community & Education

WashU Poker is the premier collegiate poker community where students compete, learn, and connect through strategic play. Students should feel welcome and excited at every WashU Poker event.

BRAND VOICE

Warm, calm, and inviting.

We want to teach and connect students, while encouraging the development of problem-solving and game-based skills. We are here to create a positive atmosphere above all.

WHAT WE ARE, AND WHAT WE ARE NOT

WE ARE

- A community
- A place to learn
- Strategy and competition
- Welcoming to beginners
- Part of campus social life

WE ARE NOT

- Gambling promotion
- Intimidating or elite-only
- About winning money
- A boring announcement feed

MESSAGING

SAY THIS

- “Meet new people at the table.”
- “No experience required.”
- “We’ll teach you.”
- “Sharpen your decision-making.”

NEVER SHOW

- Money won
- Real-money stakes
- Anything glamorizing gambling
- Skill and play, never wagering

Everything we create contributes to one of three pillars.

01 • COMMUNITY

Belonging

Make people feel that they are part of a community, which drives membership.

Member spotlights, officer interviews, celebrations, behind-the-scenes.

ATTENDANCE • COMMENTS • DMS 40% OF OUTPUT

02 • COMPETITION

Excitement

Show exciting and educational poker gameplay, which drives reputation.

Final tables, tournament recaps, dramatic photography, player rankings.

SHARES • REACH 30% OF OUTPUT

03 • EDUCATION

Authority

Become known for teaching poker, which drives beginners and sponsors.

Poker tips, probability graphics, hand analysis, in-game terminology.

SAVES 30% OF OUTPUT

COMMUNITY FIRST

Sell belonging, strategy and story, never gambling.

BEGINNER-FRIENDLY ALWAYS

“Never played? We’ll teach you” is the hook that grows us.

HUMAN OVER POLISHED

Authentic content is what gets shared and saved.

SKILL OVER MONEY

Play money, real strategy. Never dollars won.

Rules on Ink, never text.

Secondary text on Paper.

Rules on Paper and secondary text on Ink.

Every approved pairing, measured against WCAG 2.1.

SAMPLE	PAIRING	RATIO	RATING	WHERE TO USE IT
AA 123	Ink on Paper	16.9:1	AAA	All display and body type on light layouts.
AA 123	Graphite on Paper	4.8:1	AA	Captions, specs and supporting lines.
AA 123	Silver on Paper	2.0:1	RULES ONLY	Rules. Never type on Paper.
AA 123	Paper on Ink	16.9:1	AAA	All display and body type on dark layouts.
AA 123	Silver on Ink	8.6:1	AAA	Secondary text and page numbers on dark.
AA 123	Slate on Ink	2.5:1	RULES ONLY	Rules. Never type.
AA 123	Red on Paper	3.8:1	ACCENT ONLY	Markers, rules and short accent labels.
AA 123	Red on Ink	4.4:1	ACCENT ONLY	Markers, rules and short accent labels.

Red sits below the 4.5:1 body-text threshold, never let a red label be the only place a piece of information appears.

One family with three fonts.

RULE WEIGHTS

Four only. Silver hairlines on Paper, Slate on Ink, solid Red accents.

Three textures, always behind content.

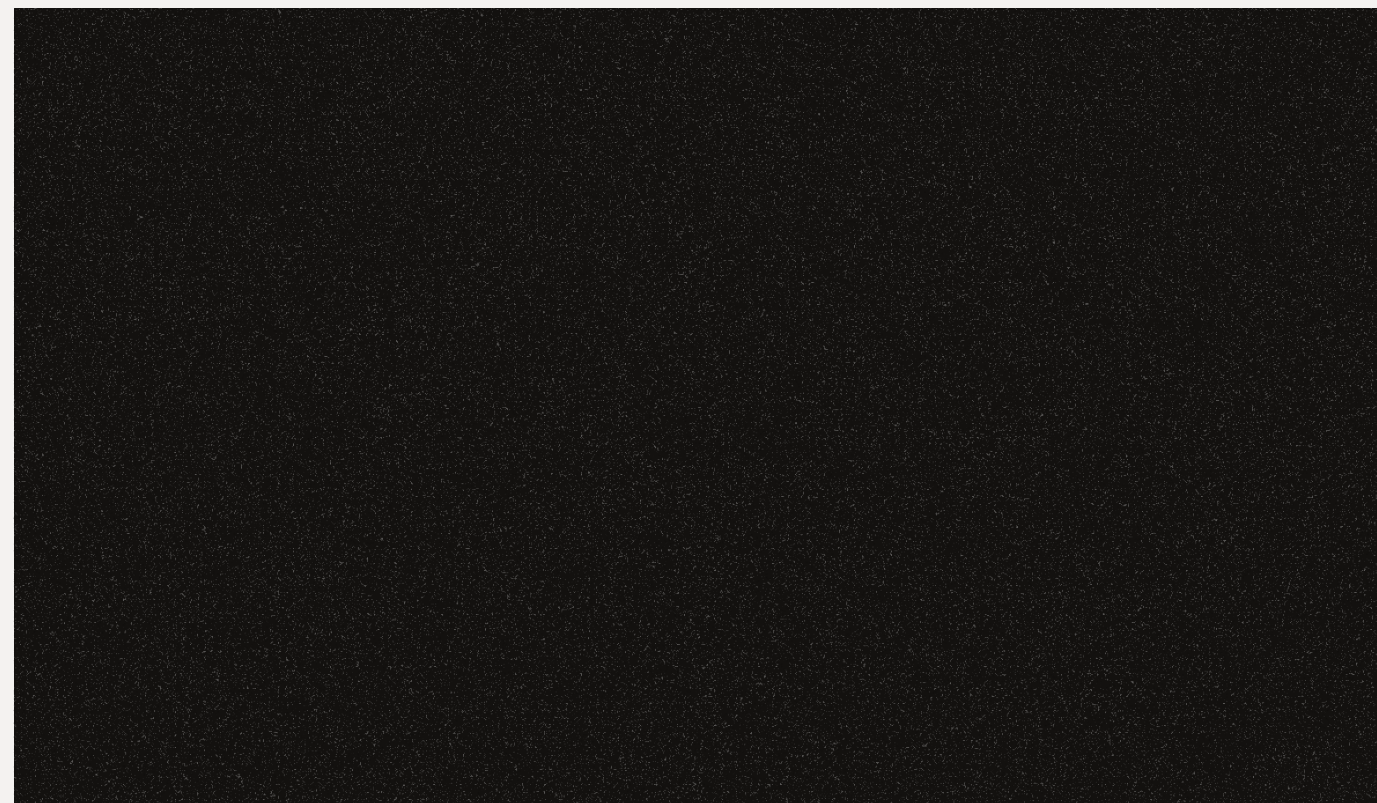

HALFTONE

A dot-screen burst. Use it large and cropped by the artboard edge.

BEHIND EVERYTHING

Type, photos and rules sit on top.

GRAIN

Fine film grain over a whole surface. Stops flat Ink looking digital. Use sparingly

ONE PER LAYOUT

Mixing two textures reads as noise.

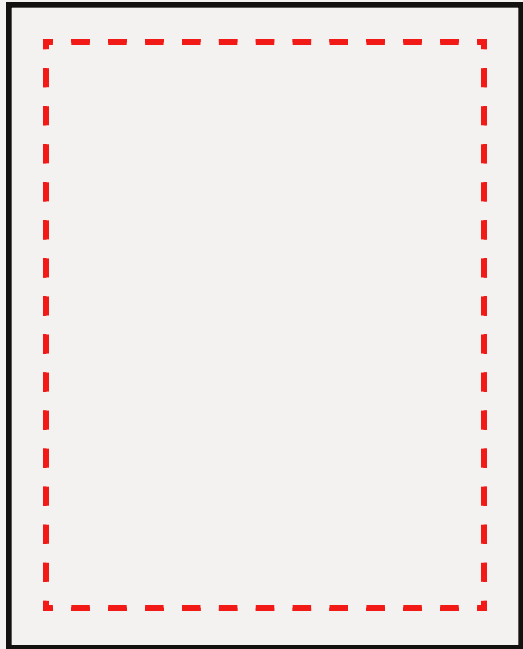

TRANSPARENCY GRADIENT

A fade from Ink to clear. Lets type sit legibly over photography.

USE OPACITY WISELY

Be mindful of increase and stops.

Safe area takes into account unavoidable white edge when printing without trimming.

SPACING

■ GAP S · 20PX inside a block

■ GAP M · 40PX between blocks

■ GAP L · 80PX between sections

Three treatments. One per layout is best.

BORDERED • ON PAPER

A 2px Silver border, square corners, full column width. Portraits and anything on a light layout.

SCRIM • ON INK

Full bleed with a gradient to Ink across the bottom. The only way type may sit on a photo.

DUOTONE • TEXTURE

Desaturated to grayscale. Crowd shots and backgrounds where type sits alongside.

See you at the table.

A FRIENDLY NOTE ON TOOLS

Every color and text style here is saved in this Figma file as a variable and a text style, so in Figma you can apply them by name instead of retyping anything. If you would rather work in Illustrator, InDesign or Canva, ignore all of that, as the HEX, RGB and CMYK values on the color pages are everything you need.
